**GLAZE OPTIONS.** Glazes are a finishing touch that affirm the presence of fine cabinetry. Beaded door styles, as well as those with roping, pillowed mouldings or raised panels, can become works of art with a sensitive use of glazing.

**SHOWN LEFT TO RIGHT:** Mandarin stain unglazed, Mandarin Coffee Glaze (dry glaze), Mandarin Onyx Glaze (wet glaze).

Nearly every stain is offered with your choice of light or dark glazes. Each of the doors to the right began with a Mandarin stain on cherry, which is shown unglazed on the left. The center door features a dry coffee glaze; notice this door has a very similar tonal appearance to the unglazed door. Dry glazes are intended only to highlight and accentuate the door's profiles. The wet, onyx glaze on the third door deepens the overall tone of the underlying stain, creating a new finish look as well as profile highlights. Ask your designer to see actual wood color chips and door samples to make the decision that's right for your home.

**BRUSHED FINISH OPTIONS.** This beautiful technique consists of a base color that is touched with a directional brush stroke. Applied by hand, this finish creates unparalleled depth and movement to the final product. Finish combinations present looks that range from aged or weathered, to a modern contemporary feel.

**BRUSHED FINISH OPTIONS SHOWN ABOVE. LEFT TO RIGHT:**  
Pecan Mocha Brushed Sepia, Maple Dove Brushed Ebony, Maple Wafer  
Brushed Sepia, Cherry Canyon Brushed Ebony

**OLD WORLD HEIRLOOM FINISHES.** Our cabinetry designers and our Antiquing and Vintage Touch specialists put their heads together to create these strikingly special effects. Each treatment takes into consideration door style, stain and glaze, the Vintage Touch method and the amount of Antiquing. The dramatic result showcases the standards of quality in every Omega door.

**HEIRLOOM FINISHES SHOWN LEFT TO RIGHT:**  
Heirloom Black, Blackberry, Bristol, and Rococo.

**CUSTOM OPAQUE COLORS.** Set your imagination free. Our Semi-Custom line now offers the ease of custom color with our color match program. Submit an opaque paint color or chip from any paint manufacturer for an exact color match. We can make it all happen with amazing subtlety and panache.
