# KITCHENS

SELECTIVE. EXPANSIVE. YOUR IDEAS. YOUR HOME.

From the first idea to completion, we offer seamless solutions with lasting beauty. You will experience elegance in design, customization and support. A kitchen is defined by its cabinetry, and, with Omega's help, you can define yours down to the smallest detail with the flexibility of our custom approach and the extent of our embellishment collections. The essence of each room emerges from its finishes, opaques, glazes and special treatments. Its personality and level of formality. Its color, whether traditional, fashionable and innovative, or of your own creation. Our cabinets, finishes and details hit the high-fashion high points while wrapping you in your own comfort zone. Handcrafted experience. If you can dream it, Omega can build it.

# OTHER ROOMS

SAVOR. PLAY. WORK. RELAX. REST.

You live in your entire house, and your dreams don't stop at the kitchen door. Throughout your home, there are rooms, byways, nooks and crannies ripe for your personal touch. These are spaces that are particular to your own life choices, to the interests and activities that matter. By employing custom work, you build the amount of storage just right for your needs, while embellishing it at a level that fits your taste. Why not take that space and make something wonderful? A wine bar. A quiet study. A kitchen/library/entertainment alcove. If you need matching furniture, why not have Omega custom-make it? Custom cabinets allow you to configure a credenza that fits your dining room wall exactly, to choose a personalized finish that matches desk to bookcase.

## OMEGA CABINETRY

# ARTISTRY

DESIGN, ORGANIZATION, DETAIL AND STYLE. ALL YOURS.

Is it possible to tailor a home to be truly distinctive? Memorable as a beautiful place, and yet strikingly useful at the same time? Of course it is! Omega offers you the ability to get exactly what you want in your house, no matter how specialized your interests or how specific your requirements. Make up your list of necessities and let your imagination roam. Then step by step, shape your home so that everywhere you turn you will find the storage, the elegance, the easy relaxation that you need. Every person is unique and every home can be, too. It's just a matter of knowing what is important to you, of letting your priorities lead the design process, rather than a design setting your priorities.

# HAND IN HAND

“From beginning to end, we loved the Omega experience! There was a creative answer for every challenge we could come up with.”

— OMEGA CABINETRY BUYERS, FL

In this sparkling Florida home, a dream has taken shape. When planning their new construction, the homeowners chose

combine in-depth organization with an inviting elegance. The couple had also fallen in love with a unique finish that was part of their gray and white “color” scheme. Enter Omega! Crisply organized, yet easygoing, the kitchen draws its charm from clerestories, mullioned glass and hutch-style plate racks, among many other features. Yet behind the beauty is a working space in which platters and pots, open-kitchen style and tidy concealment each have their day.

Omega to work out their very specific vision, their many specialty items that would require custom cabinetry. Because they love to cook and entertain, the kitchen needed to

# CUSTOM COLOR

The distinctive deep-gray custom finish with contrasting Oyster are defining themes here, setting off collections of white stoneware and porcelain, articulating functional spaces and providing an understated note of fashion. The same craftsmanship that goes into our custom cabinets goes into Omega's Custom Color Matching process. Color matches are processed as soon as received, with half of a 12" by 15" color

sample for approval usually ready in 10 days. (The other half is kept to verify that every piece we produce matches your specific color or special effect.) Our high-tech color lab is staffed with nationally certified color experts. Doors are individually prepared by a hand-wiped process, and color matches are kept at Omega for six months.

“This color still makes me happy every time I see it. So soothing yet so stylish.”

# APPLIANCE PANELS

Both a focal point and a functional requirement in this wide open kitchen, these storage and appliance panels are grace notes of the design. Paced perfectly to define the room's areas

ins and outs of the latest models, specs and modifications. We do the work, and our quoting and ordering process saves time and money. Omega builds panels for refrigerator/freezers,

“What a pleasure to have these gorgeous panels. Omega really understood what the design called for and what would please us.”

and providing both storage and beauty, they are the ultimate detail and finishing touch. A beautiful appliance panel is easy to achieve with Omega's help. Our specialists know how to make the integration perfectly seamless; they understand the

dishwashers and more, with each one carefully matched to our library of appliance manufacturers' specifications. We provide fully assembled panels that cover appliances precisely.

# HAND-CRAFTED MATCHES YOUR HIGH STANDARDS

“For our dream house, only the best—the quality of this construction makes us proud.”

For a very personal vision, only Omega’s custom crafting would do. Our tradition of craftsmanship spans decades, going back to our roots—skilled woodworkers in this country’s heartland. Never sacrificing quality. It is a belief that still rings true today, with selections from the world’s most beautiful hardwoods custom crafted in the U.S., processes kind to the environment

and finishes so hardworking you will enjoy their rich beauty for years. Experience, attention to detail and the personal touch are hallmarks of Omega’s process. We assemble cabinets before applying the stain, glaze or custom color—for a consistent finish with no seam lines. The detail and finishing given to your Omega custom cabinetry create rooms that will give you joy.

# ImAGINATION

“We thought and planned for so long, and now with Omega we’ve made it happen.”

How you imagine your life is how it can be. For this spacious and abundantly charming house, the owners wanted to avoid the over-the-top while affirming their own relaxed glamour.

Above all, they sought a large and gracious space that is thought-out to the last inch. Everything from desks to bar storage, freestanding dining island and furniture details speaks to the care that owners and designer took in this project.

The home’s black and white theme was softened in the kitchen into gray and white, and mullions and glass insets carried out the house’s spirit of airiness and light, its collection of reflective surfaces and artistic glass. With custom cabinets for a custom-built open floor plan, custom finishes, playful hardware, drawer pulls, plate racks and more—this house is a dream. Come true.

## OMEGA CABINETRY

# PERSONALITY

INDIVIDUAL STYLE IS A MATTER OF DETAILS.

Cookie cutters for cookies, yes. Cookie cutter kitchens, never. While our standard product offerings collect everything you need to make a room perfect, the story doesn't end there. We can also customize details to your specifications: a special hood, a different kind of moulding. By the time you are done, you will know it is very much your own design. Building the look of a room requires more than the footprint of cabinetry and appliances. It calls for the shapes and proportions of mouldings and their enhancement by finishes and glazes; the sculptural qualities catching the light, adding texture and definition; the conveniences and accessories that make experiences within the room so much better. Tailor your enjoyment as you choose details and get the mix just right.

# EMBELLISHMENTS

SEVEN COLLECTIONS + MORE

ACANTHUS

CELTIC

DAVIES

INFINITY

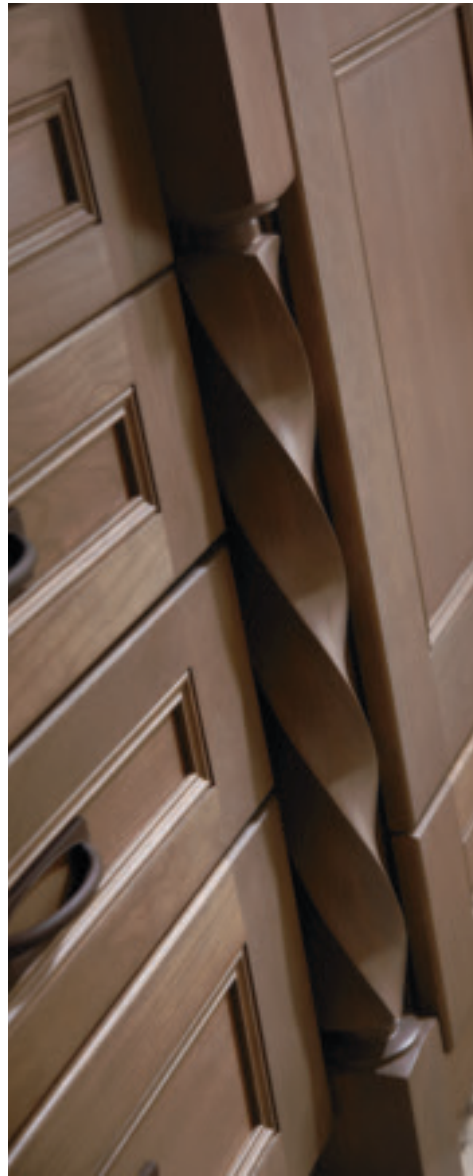

Each of these design-specific collections supplies you with a bounty of coordinated embellishments—onlays, corbels, mullions and matched mouldings. While each is a work of art in its own right, when collected they make it easy for you to create a thoroughly pulled-together style all your own; scallops with angles, leafy scrolls with classical pediments. And you aren't limited; use any detail on its own at any time or create your own one of a kind design.

LIANA

PINNACLE

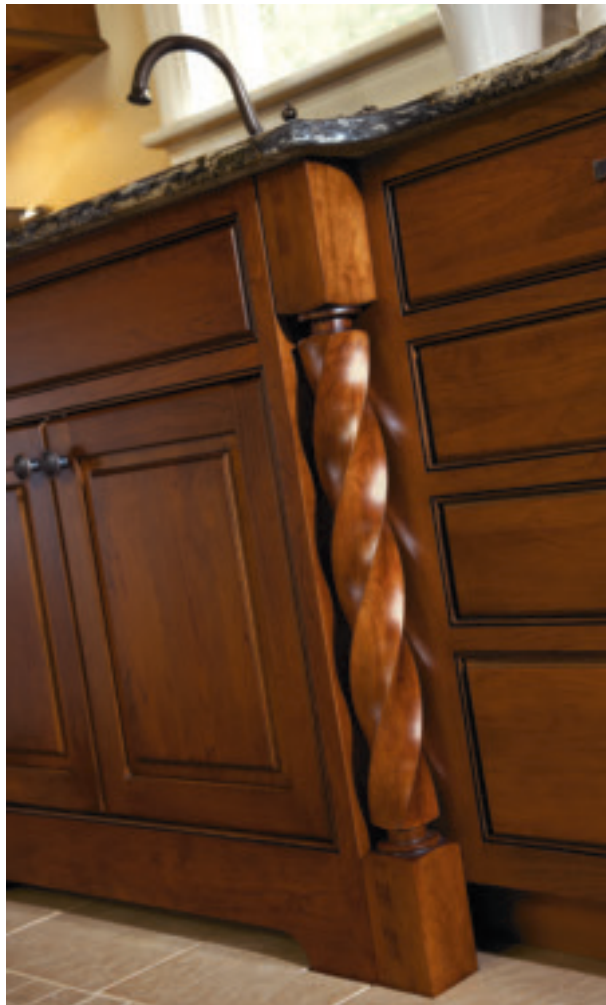

TRIAD

AND MORE...

MOULDING AND EMBELLISHMENTS

**YOUR ROOMS CAN BE BRILLIANT** with carefully chosen embellishments. Textures, curves, sculpted heritage and clean angles. Evoke history or create your own. A classical scroll for European glamour, an Arts & Crafts surprise in an urban loft. Mullions, friezes, fluting, a precisely crafted piece of furniture. Delicate, assertive, understated or dramatic, the Omega array helps you elevate daily living to an art form.

**THE ART OF DEFINITION.** Spaces defined by the elegant authority of lines, by pleasures of form and surface, rendered to capture every inch of potential. Self-portraits in line and form; crispness of beaded, turned, inset and mullioned spaces; interplay of wood and glass; contrasts of fluting, beading, dramatic brackets. Depth and clarity in an amazing variety of shapes, whether you use a collection or a mix of your own.
